Managing Capacity Costs: Solutions For Your Business

What can you do to protect your business?

While you can't avoid the higher rates for capacity, you can lower the amount of capacity you need by reducing your usage during peak hours, or by shifting your peak usage hours to a different time of day. AEP Energy offers several solutions to help you mitigate the impact of rising capacity rates to your business.

Fixed-Price Contracts

Our fixed-priced contracts provide price stability and predictability so you can budget effectively.

Demand Management

Utilize our demand management programs to shift or reduce energy usage during peak times or receive payments for curtailing usage during specific periods.

Energy Efficiency Measures

Utilize AEP Energy's energy audits to identify and implement energy efficiency measures that can significantly impact your budget.

Onsite Distributed Generation

Explore AEP Energy's onsite solutions, such as solar panels or battery storage, to reduce reliance on the grid and ensure continuous business operations.

Discover your custom solution with AEP Energy

Every business is unique. That's why we offer custom plans and services designed to exercise control over your energy, manage risk and maximize savings. At AEP Energy, we're not just interested in being your supplier. We are your trusted energy partner.
